

# Where To Start

**To become a web developer, start with the subjects below, in the following order:**

## HTML

### 1. Create your first web page

The first thing you have to learn, is HTML, which is the standard markup language for creating web pages.

## CSS

### 2. Style your web page

The next step is to learn CSS, to set the layout of your web page with beautiful colors, fonts, and much more.

[Learn CSS](#)

## JavaScript

### 3. Make your web page interactive

After studying HTML and CSS, you should learn JavaScript to create dynamic and interactive web pages for your users.
